

Practical information about Klevtangen

Klevtangen is located approx. 700 meters from the road, and you must therefore take a nice, but short walk down to the forest cabin. Hiking shoes are an advantage when you go here, and the path down is marked and clearly visible with Hafsrød's logo.

The forest cabin has one double bed, and bed linen and towels must be brought.

There is no running water on the cabin. Drinking water can be taken from the stream near the cabin, but it is fine to drink the water from lake Store Erte. Water cans to fetch water with can be found in the stable.

There is a bio toilet in the stable. It is used without running water.

The cabin does not have electricity, and you should therefore bring a battery bank for charging your cell phone.

The cabin is equipped with a gas stove and gas refrigerator but does not have a freezer. Extra gas can be found in the stable.

Firewood for heating is included in the price, and this can be found in the stable.

Canoes are included in the price, and life jackets are available in different sizes in the stable.
